Unit controls and compressors are within an isolated compartment of the air current to facilitate the service and silent operation. You can select the controller provided by the fabrica or the client to comply with the existing or new buildings control architecture. Controls Elomic components labeled and colored wiring co -encoded coincide with the specific color coded color diagram that is laminated and permanently fixed within the control compartment. Access doors with stainless steel piano hinges of full length and quarterly rotation closure mangoes provide improved reliability over hinges of the zenic point, and make the unit easily accessible. ECM -driven condenser fans for head pressure control, reduction in energy consumption and lower sound levels in the environmental conditions RQ outside the design. Fans and fans of supply supply of late -curved plenum with rubber insulation mounts are more efficient, more silent and require less maintenance than the fans driven by the belt. Heat pump Water source or geotā © rhmic heat pump configurations. Double stainless steel drain buckets eliminate feed water that can support microbial growth and stainless steel construction avoids corrosion that could lead to water leaks and pollutants in the air flow. Motor economizer installed in fara, sensitive or Enthalpy, allows free cooling. Corrosion -resistant polyurethane paint exceeds a 2,500 -hour salt spray test. DX air management units, 400-3,600 CFM, water or non-compressed. The protection option of the inner corrosion protects the internal components of the in corrosive environments. Two-step R-410A displacement compressors and variable capacity for load cooling and load efficiency. air-cooled refrigerated condenser applications packaged dx roof unit, from 2 to 6 tons. this type of construction also makes the closet stiffer and resistant to damage, provides an increase in sound damping and reduces air.naelic .naelic ot ysae si dna ,htworg laiborcim stneverp ,egamad erutsiom morf noitalusni eht stcetorp llaw renni eht .noitartilfni dna
